

MRS XL275 DUO

EIJKELKAMP FRASTE

The Eijkelkamp Fraste MRS XL275 DUO is a versatile multipurpose drilling rig, specifically designed for geotechnical investigations, environmental studies, and sonic drilling applications. By combining high pullback force with powerful rotary performance and adaptable drilling configurations, it ensures reliable productivity across a wide range of ground conditions.

ENGINE	▪ CAT C71 Tier 4	
	▪ 205kW @ 2200rpm	
MAST & FEED	▪ Stroke: 5.7m	
	▪ Maximum Pull Up: 120kN	▪ Maximum Pull Down: 68kN
DRILLING CAPACITY	▪ HQ: up to 250m	
	▪ PQ: up to 200m	▪ Rotary mud: up to 150m
	▪ Sonic: up to 100m	▪ Solid augers: up to 40m
KEY SYSTEMS	FMC L1122 Mud Pump, Cat Pumps 5120 Water Pump, Bredel SPX40 Grout Pump, Dinamic Oil SE27/3 Winch, Dinamic Oil SE20/3 Winch	
SAFETY & FEATURES		▪ ManipAll Remote Rod Handler (200kg SWL)
	▪ Interlocked Rotation Cage	▪ Automatic Fire Suppression System
	▪ Remote Trimming with Alarms	
	▪ FOPS fitted to control panel	▪ Starlink Connectivity
